Renewal Deals Bar Graph — Visualization Guidance

Summary

The "show me in bar graph" request didn't return any rendered visualization — likely because there's no specific dataset or filter attached to trigger the chart.

Based on the last query, try being explicit: "Show me all Renewal type deals by stage as a bar graph" or "Bar graph of Renewal deals by owner and amount" — specifying the X and Y axes alongside the data from freshsales_Deal.csv tends to produce the chart cleanly. The 25 Renewal deals across 5 stages we just covered would make a compelling visual, especially comparing the \$2.46M in Negotiation against the \$266K still in Prospecting.
